

EL DISTRITO URBANO NÚMERO 1 NO ES UNA PEQUEÑA CIUDAD; ES UNA PARTE DEL CONJUNTO DE LA NUEVA CIUDAD. ALCANZARÁ EL PERFECTO BALANCE ENTRE LA ESFERA NEUTRAL, URBANA Y LA RED. CORONARÁ EL ARCO OESTE DEL NAMC. LOS CIUDADANOS SERÁN LOS PROTAGONISTAS DE LA HISTORIA OFRECIDA COMO UN LIBRO EN BLANCO PARA SU CONSTRUCCIÓN. PROPONEMOS UNA NUEVA FORMA DE URBANISMO INTEGRADO EN LA NATURALEZA. EL CONCEPTO URBANO DE ESPACIO, NO ES UN LUGAR DE REPRESENTACIÓN ENTRE LO PÚBLICO Y LO PRIVADO, ENTRE LA AUTORIDAD Y LOS CIUDADANOS; EN CAMBIO ES UN LUGAR DE NEGOCIACIÓN ENTRE HUMANOS Y ENTRE HUMANOS Y LOS ARTEFACTOS QUE DOTAN LA VIDA CONTEMPORÁNEA. EL DISTRITO NÚMERO 1 SERÁ UEL MODELO PARA OTROS DISTRITOS QUE SERÁN CONSTRUÍDOS EN EL NAMC. RESPONDERÁ A LA FORMA DE VIDA DEL SIGLO XXI. NO EXISTIRÁ OTRO EN EL MUNDO PORQUE SU PROPUESTA RESPONDE UNICAMENTE A ESTE LUGAR, ESTE TIEMPO Y ESTE PROYECTO. ESTARÁ EN UNIDAD CON LOS DEMÁS DISTRITOS DE LA CIUDAD. UN ESPACIO DE TOLERANCIA Y COEXISTENCIA ENTRE TODOS LOS AGENTES URBANOS; CIUDADANOS, PEATONES Y TRAFICO VEHICULAR. NATURALEZA ESPECIALIZADA, ESPACIOS DE TRANSICIÓN, ESPACIOS DISEÑADOS PARA RITUALES Y PARA LA FONOMENOLOGÍA DE LA EXISTENCIA. PAISAJE URBANO DEL SIGLO XXI, PAISAJE HERMOSO DE LA PERIFERIA QUE SUPERA ESCENARIOS OBSOLETOS DE MANZANAS Y CALLES, DE CENTRO Y DE BARRIOS.

The urban District Number 1. It is not a small city; it is a joint part of the New City. It will reach the perfect balance between the neutral sphere, the urban sphere and the Net sphere. It will crown the end of the West Arc of the NAMC. The citizen will be the protagonist of the story, offered as a blank book for its construction. We propose a new way of urbanism integrated into nature. The urban concept of space is no longer a place of "representation" between private and public, between the authority and townspeople; instead it is a space of negotiation among humans and between humans and the artefacts that endow contemporary life. District number 1 will be a model for the other districts that will be built in the NAMC. It will respond to the forms of living in the XXI century. It will be original and innovative. There will be no other in the world because this proposal responds only to this place, to this time and to this project. It will be in unity with the other districts of the city. A space of tolerance and coexistence among all the urban agents; citizens, pedestrians and vehicular traffic. Specialized nature, transition spaces, places designated for rituals and phenomenology of existence. Urban landscape of the XXI century, beautiful landscape of the periphery that surpasses the obsolete sceneries of squares and streets, downtown and neighbourhoods.

NATURAL SPACES

DEISURE ORCHARD

LINEAR PARK

ARTIFICIAL VALLEY

COGENERATION FOREST

MAIN STREET

SHARED GARDEN BETWEEN SINGLE HOUSING

Urbanism of superstructures able to accommodate forms of urban life presently impossible.

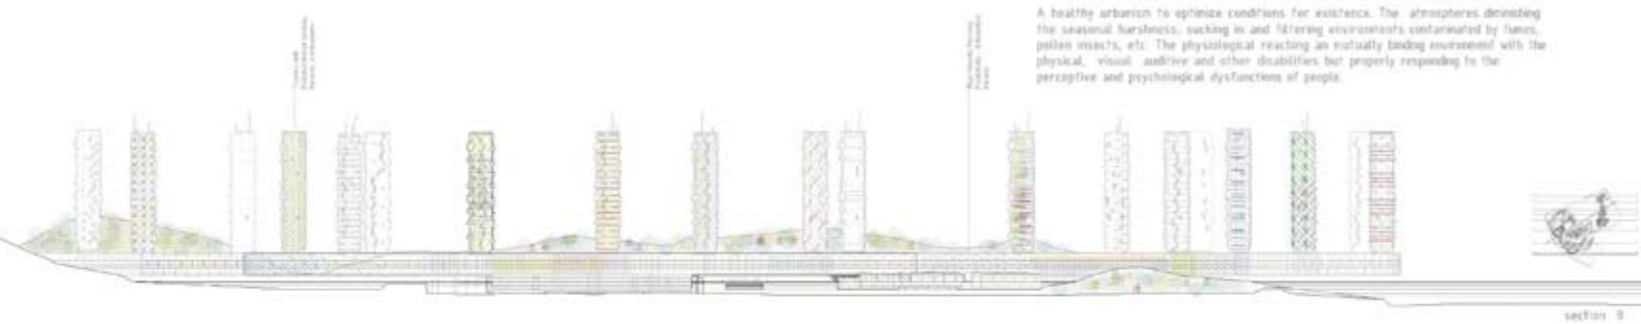

The natural composed of the topography and the forest, the rice fields, the spaces under protection. The urban and architectural composed of infrastructures, architectural typologies, the programmed park and the equipment.

The district contemplated as a complex entity of all the natural and architectonic material forming a polytypic and possible organism which goes beyond the mere sum of nuclear enclosures.

A healthy urbanism to optimize conditions for existence. The atmosphere denuding the seasonal harshness, sucking in and filtering environments contaminated by fumes, pollen insects, etc. The physiological reacting an mutually binding environment with the physical, visual, auditive and other disabilities but properly responding to the perceptive and psychological dysfunctions of people.
